SMART SOLAR NEWS

June - Sept 2023

Today
Sunny/Fair

DID YOU KNOW?

1. That electricity is predicted to double in cost within 5 years time? *
2. Solar power will save about \$1,500 per year, per average household. These savings will rise as electricity costs increase. What would you do with an extra \$1,500 per year?
3. Smart Solar is a member of SEANZ, entitling you to super-low interest rates for a warmer, drier, healthier and energy efficient home. Get a free quote and energy statement from Smart Solar, and enquire about a green loan.
4. Smart Solar is more than a power saving solution, it's an energy management system that puts YOU in control of your energy usage! We'll teach you how to get the best from your Smart Solar investment for the greatest gain.
5. Smart Solar's team of designers, installers and electricians ensure quality in every installation.
6. Smart Solar provide tailored, efficient and effective solutions, guaranteed to generate the most amount of solar energy for your budget. A.K.A. "best bang for your buck!"
7. Smart Solar is a Smart Systems company, a family owned business with a 26 year history in Canterbury. We're local and here to help with your energy needs!

CHECK THIS OUT!
